

VR 10 DC Reducer

NEW! Smart tool for testing minimum trip voltage of trip coils

1. GENERAL INFORMATION

The VR:10:n is designed to be used with a SA10 or SA5 and can reduce the incoming voltage to a user selected lower voltage

2. SPECIFICATION

2.1 Power supply and input (IN and COM)

Voltage range: 0-300 DC(0-240VAC) \pm 10%,

Internal fuse : 25 Amp slow for 400 VAC

2.2 Output (OUT and COM)

Voltage range : 100% to 0% of Input voltage in steps of 1%.

2.3 USB connector

Connector: USB B type connector

Connection speed: 57 600 bits/s

2.4 Dimension

Height*Width*Depth: 108*168*75 mm

Weight: 0.9 Kg(2lb)

3. VR10 INCLUDES

1 pcs red instrumentcable 0,5m

1 pcs black instrumentcable 0,5m

1 pcs USB cable 2,0m

Order No: S149

4. SOFTWARE REQUIREMENTS

Necessary software for VR10 is BTS11.
