

## RESPONSIBLE MINERALS SOURCING POLICY (CMRT & EMRT)

Elcon AB is committed to responsible sourcing of minerals and to respecting human rights throughout its supply chain.

The company conducts due diligence in alignment with the OECD Due Diligence Guidance and applies this policy to minerals reported under both the Conflict Minerals Reporting Template (CMRT) and the Extended Minerals Reporting Template (EMRT), including conflict minerals (3TG) and relevant extended minerals such as copper, natural graphite, lithium and nickel.

Elcon AB does not knowingly source minerals that directly or indirectly finance armed groups or contribute to serious human rights abuses in conflict-affected and high-risk areas (CAHRAs). The company expects relevant suppliers to support responsible mineral sourcing practices.
